Aims and Scope
Physics Letters B ensures the rapid publication of letter-type communications in the fields of Nuclear Physics/Intermediate Energy Physics, High Energy Physics and Field Theory.

Abstracted/indexed in:
Current Contents: Physical, Chemical & Earth Sciences; INSPEC.

Publication information
PHYSICS LETTERS A (ISSN 0375-9601) and PHYSICS LETTERS B (ISSN 0370-2693) will each be published weekly. For 1999, volumes 250–263 of Physics Letters A are scheduled for publication. For 1999, volumes 443–469 of Physics Letters B are scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from these journals websites (http://www.elsevier.nl/locate/pla) (http://www.elsevier.nl/locate/plb). Further information is available on these journals and other Elsevier Science products through Elsevier's website: (http://www.elsevier.nl). PHYSICS REPORTS (ISSN 0370-1573) will be published approximately weekly. For 1999, volumes 306–321 of Physics Reports are scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (http://www.elsevier.nl/locate/physrep). Further information is available on this journal and other Elsevier Science products through Elsevier's website: (http://www.elsevier.nl).
A combined subscription to the 1999 issues of Physics Letters A, Physics Letters B and Physics Reports is available at a reduced rate.
Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

Orders, claims and product enquiries: please contact the Customer Support Department at the Regional Sales Office nearest to you:

New York, Elsevier Science, P.O. Box 945, New York, NY 10159-0945, USA. Tel: +1 212 633 3730, [Toll free number for North American customers:1 888 4ES INFO (437 4636)], Fax: +1 212 633 3680, E-mail: usinfo-f@elsevier.com
Amsterdam, Elsevier Science, P.O. Box 211, 1000 AE Amsterdam, The Netherlands. Tel: +31 20 485 3757; Fax: +31 20 485 3432, E-mail: nlinfo-f@elsevier.nl

Copyright © 1999 Elsevier Science B.V. All rights reserved.

This journal and the individual contributions contained in it are protected by the copyright of Elsevier Science B.V., and the following terms and conditions apply to their use:
Photocopying. Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.
Permissions may be sought directly from Elsevier Science Rights & Permissions Department, PO Box 800, Oxford OX5 1DX, UK: Tel: +44 1865 843830; Fax: +44 1865 853333; E-mail: permissions@elsevier.co.uk. You may also contact Rights & Permissions directly through Elsevier's home page (http://www.elsevier.nl), selecting first 'Customer Support', then 'General Information', then 'Permissions Query Form'.
In the USA, users may clear permissions and make payment through the Copyright Clearance Center Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; Tel: +1 978 750 8400; Fax: +1 978 750 4744. And the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; Tel: +44 171 631 5555; Fax: +44 171 631 5500. Other countries may have a local reprographic rights agency for payments.
Derivative works. Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the Publisher is required for resale or distribution outside the institution.
Permission of the Publisher is required for all other derivative works, including compilations and translations.
Electronic storage or usage. Permission of the Publisher is required to store or use electronically any material contained in this journal, including any article or part of an article.
Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.
Notice. No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.
Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

PHYSICS LETTERS B

Instructions to authors

Aims and Scope

Physics Letters B ensures the rapid publication of letter-type communications in the fields of Nuclear Physics/Intermediate Energy Physics, High Energy Physics and Field Theory.

Submission

Manuscripts for Physics Letters B (one original and two copies), accompanied by a covering letter, should be sent to one of the following Editors:

L. Alvarez-Gaumé, Theory Division, CERN, CH-1211 Geneva 23, Switzerland,
E-mail address: Alvarez@NXTH04.CERN.CH
Theoretical High Energy Physics (General Theory) preferably from southern Europe

J.-P. Blaizot, Service de Physique Théorique, Orme des Merisiers, C.E.A.-Saclay, F-91191 Gif-sur-Yvette Cedex, France,
E-mail address: plb(@)SPHT.SACLAY.CEA.FR
Theoretical Nuclear Physics

M. Cvetič, David Rittenhouse Laboratory, Department of Physics, University of Pennsylvania, 209 S. 33rd Street, Philadelphia, PA 19104-6396, USA,
E-mail address: plb@CVETIC.HEP.UPENN.EDU
Theoretical High Energy Physics preferably from countries outside Europe

R. Gatto, Theory Division, CERN, CH-1211 Geneva 23, Switzerland,
E-mail address: Gatto@CERNVM.CERN.CH
Theoretical High Energy Physics (Particle Phenomenology) preferably from southern Europe

H. Georgi, Department of Physics, Harvard University, Cambridge, MA 02138, USA,
E-mail address: Georgi@PHYSICS.HARVARD.EDU
Theoretical High Energy Physics preferably from countries outside Europe

W. Haxton, Institute for Nuclear Theory, Box 351550, University of Washington, Seattle, WA 98195-1550, USA,
E-mail address: plb@PHYS.WASHINGTON.EDU
Theoretical Nuclear Physics

P.V. Landshoff, Department of Applied Mathematics and Theoretical Physics, University of Cambridge, Silver Street, Cambridge CB3 9EW, UK,
E-mail address: P.V. Landshoff@DAMTP.CAM.AC.UK
Theoretical High Energy Physics preferably from northern Europe

V. Metag, II. Physikalisches Institut, Universität Giessen, Heinrich-Buff-Ring 16, D-35392 Giessen, Germany,
E-mail address: volker.metag@EXP2.PHYSIK. UNI-GIESSEN.DE
Experimental Nuclear Physics (Heavy Ion Physics, Low Energy Nuclear Physics)

For further instructions see next page.

L. Montanet, CERN, CH-1211 Geneva 23, Switzerland,

Experimental High Energy Physics

J.P. Schiffer, Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439, USA,
E-mail address: Schiffer@ANL.GOV
Experimental Nuclear Physics (Heavy Ion Physics, Intermediate Energy Nuclear Physics)

K. Winter, CERN, CH-1211 Geneva 23, Switzerland,
E-mail address: Klaus.Winter@CERN.CH
Experimental High Energy Physics

For submissions in High Energy Physics authors are encouraged to provide the number of their Los Alamos preprint to the Physics Letters B Editor at the moment of submission.

Original material. By submitting a paper for publication in Physics Letters B the authors imply that the material has not been published previously nor has been submitted for publication elsewhere and that the authors have obtained the necessary authority for publication.

Refereeing. Submitted papers will be refereed and, if necessary, authors may be invited to revise their manuscript. If a submitted paper relies heavily on unpublished material, it would be helpful to have a copy of that material for the use of the referee.

Publication speed

The Editors and Publisher cooperate closely to ensure minimal publication delays. All proofreading will be done by the Publisher and proofs are *not* sent to the author(s). In order to keep delays to a minimum it is of utter importance for the author(s) closely to observe the guidelines given in the "Preparation of Manuscripts" below before submission of the manuscript and to supply an E-mail address and/or telefax number of the corresponding author.

Preparation of manuscripts

The following requirements as regards presentation of the manuscript should be met:

(1) **Manuscript:** All manuscripts should be written in good English. The original typescript should be typed on one side of the paper, with double spacing and a wide margin. Instead of the original typescript, a copy of high quality (not a carbon copy) is also acceptable. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, Classification codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables. The name, complete postal address, telephone and fax numbers and the E-mail address of the corresponding author should be given on the first page of the manuscript. The title page should contain title, author(s), address(es) and abstract. The main text should start on a new page. All pages should be numbered.

(2) **Length:** The total length of the paper should preferably not exceed six journal pages, equivalent to ten typewritten pages with double spacing, including the list of authors, abstract, references, figure captions and three figures. In the case that more figures are required, the text should be shortened accordingly.

(3) **Title:** The title should be brief and such that it conveys to the informed reader the particular nature of the contents of the paper.

(4) **Address:** The name(s) of the author(s) and the name and address of the institute where the research work was done should be indicated on the manuscript. The name of the author to whom correspondence is to be addressed should be underlined and an E-mail address and/or a telefax number supplied.

(5) **Abstract:** An abstract of less than 60 words is required. It should contain the keywords of the paper as well as the essence of the results achieved.

(6) **Classification codes and keywords:** Supply one to four classification codes (PACS and/or MSC) and up to six keywords of your own choice that describe the content of your article in more detail.

(7) **Formulae:** Displayed formulae should be numbered and typed or clearly and unambiguously written by hand. Symbols requiring bold-face type, like vectors, etc., should be identified properly in the margin of the manuscript. Long equations should be avoided as much as possible by introduction of suitable abbreviations of component expressions. Special attention should be paid to symbols that can easily be misread, such as i (lower case), I (cap.), l (el), 1 (one), ′ (prime), o (lower case), O (cap.), 0 (zero), ° (degree), u,v (vee), ν (Greek nu), V (cap.), x, $\times$, X, z, Z, p, P, ρ (Greek rho), etc.

(8) **Footnotes:** The footnotes may be typed at the end of the page on which they are alluded to, or at the end of the paper, or on a separate sheet. *Please do not mix footnotes and references.*

(9) **References:** In the text, reference to other parts of the paper should be made by section (or equation) number, not by page number. References to other papers should be consecutively numbered in the text using square brackets and should be listed by number on a separate sheet at the end of the paper. *Please do not combine multiple references to different papers into one numbered reference*. The references should be as complete as possible and be presented as follows:
For a book:
B. de Wit and J. Smith, Field theory in particle physics, Vol. 1 (North-Holland, Amsterdam, 1986).
For a paper in a journal:
UA1 Collab., G. Arnison et al., Phys. Lett. B 177 (1986) 244.
For a paper in a contributed volume:
R. Jackiw, in: Progress in quantum field theory, eds. H. Ezawa and S. Kamefuchi (North-Holland, Amsterdam, 1986) p. 83.
For an unpublished paper:
J.F. Gunion and H.E. Haber, UCD Report 86-12 (1986), unpublished.
For a preprint:
A. Lahanas and D.V. Nanopoulos, CERN preprint CERN-TH 4400/86 (1986).
For a conference report:
M.B. Green, Superstrings and the unification of forces and particles, in: Proc. fourth Marcel Grossmann Meeting on General relativity (Rome, June 1985), Vol. 1, ed. R. Ruffini (North-Holland, Amsterdam, 1986) p. 203.

(10) **Figures:** Each figure should also be submitted in triplicate: one master figure and two copies, the figure must be referred to in the text, be numbered and have a caption. The captions should be collected on a separate sheet. The appropriate place of each figure should be indicated in the margin. Axes of figures must be labelled properly. The (line) drawings for the figures must be submitted on separate sheets, drawn in black India ink and carefully lettered (with the use of stencils). The lettering as well as the essential details should have proportionate dimensions so as not to become illegible or unclear after the usual reduction by the printers (ideal lettering size after reduction of the drawing to one-column width is 1.8 mm). The drawings should preferably be of the same size as the typescript and designed for a reduction factor in print of two to three. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph, not drawn below it. The figures should be identified by the name of the first author, the journal name and the figure number. Instead of original drawings, sharp and contrasty glossy prints of about typescript size or high quality laserprints are also acceptable. If requested, original drawings will be returned to the author(s) upon publication of the paper.

(11) **Colour illustrations:** Illustrations in colour will be accepted in cases when the use of colours is judged by the Editor to be essential for the presentation. The Publisher and the author will each bear part of the extra costs involved. The costs charged to the authors of articles containing colour figures will be Dfl. 1400 (approximately US $ 760) for the first page containing colour and Dfl. 700 for each additional page with colour, independent of the number of colour figures on each page. These prices are exclusive of Value Added Tax (VAT). Authors will be billed in Dutch Guilders; the dollar price is for guidance only.
The author receives *200 reprints* of an article with colour illustrations *free of charge*. More reprints can be ordered at the usual rates for (black and white) reprints, there will be no additional charge for reprints containing colour illustrations.
Colour illustrations should be submitted in the form of good quality colour photographs, transparencies, colour printer output, or 35 mm slides. Polaroid colour prints should be avoided. When supplying colour photographs and transparencies they should be close to the final size expected for publication.
It should be noted that, in some cases, printing requirements will prevent figures from being located in the most preferred position in the text.

(12) **Tables:** Tables should be typed on separate sheets and each table should have a number and a title. The appropriate places for the insertion of the tables should be indicated in the margin.

After acceptance

Notification. You will be notified by the Editor of the journal of the acceptance of your article and invited to supply an electronic version of the accepted text, if this is not already available.
Copyright transfer. You will be asked to transfer the copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.
No proofs. In order to speed up publication, all proofreading will be done by the Publisher and proofs are *not* sent to the author(s).

Instructions for* LaTeX *manuscripts

The Publisher welcomes the receipt of an electronic version of your accepted manuscript (preferably encoded in LaTeX). If you have not already supplied the final, accepted version of your article to the journal Editor, you are requested herewith to send a file with the text of the accepted manuscript directly to the Publisher by E-mail or on diskette to the address given below.

If the electronic file is suitable for processing by the Publisher, the article will be published without rekeying the full text. The article should be encoded in LaTeX, preferably using the Elsevier document class 'elsart', or alternatively the standard document class 'article' or the document style 'revtex'.
The Elsevier LaTeX package (including detailed instructions for LaTeX preparation) can be obtained from the Comprehensive TeX Archive Network (CTAN).
Search for Elsevier on the CTAN Search page
http://www.ucc.ie/cgi-bin/ctan,
or the CTAN-Web page
http://tug2.cs.umb.edu/ctan/,
or use direct access via FTP at
ftp.dante.ctan.org (Germany), ftp.cam.ctan.org (UK), or ftp.tug.ctan.org (Massachusetts, USA)
and go to the directory
/tex-archive/macros/latex/contrib/supported/elsevier.
The Elsevier package consists of the files:
ascii.tab (ASCII table),
elsart.cls (use this file if you are using LaTeX2e, the current version of LaTeX),
elsart.sty and elsart12.sty (use these two files if you are using LaTeX2.09, the previous version of LaTeX),
instraut.dvi and/or instraut.ps (instruction booklet),
readme.
CTAN is a mirrored network of ftp.tex.ac.uk, ftp.dante.de and tug2.cs.umb.edu, which are widely mirrored (see http://tug2.cs.umb.edu/ctan/ctansite.txt) and hold up-to-date copies of all the public-domain versions of TeX, LaTeX, Metafont and ancillary programs.
Questions concerning the LaTeX author-prepared article project and requests for the booklet with instructions to authors should be directed to the address given below.
No changes from the version accepted by the Editor of the journal are permissible, without the prior and explicit approval by the Editor. Such changes should be clearly indicated on an accompanying printout of the file.
The Publisher reserves the right to decide whether to process a manuscript from authors' files or not. Articles coded in a simple manner with no user-defined macros are most likely to be handled this way.
If sent via electronic mail, files should be accompanied by a clear identification of the article (name of journal, Editor's reference number) in the "subject field" of your electronic-mail message. Authors should include an ASCII table (available from the Publisher) in their files, to enable any transmission errors to be detected. For diskettes, allowed formats are 3.5″ or 5.25″ MS-DOS, or 3.5″ Macintosh.
Addresses – Mail: Drs. E.J. van der Wolk, Physics Letters B, Elsevier Science B.V., P.O. Box 521, 1000 AM Amsterdam, The Netherlands. E-mail: NHPDESKED@ELSEVIER.NL.

Author benefits
No page charges. Publishing in Physics Letters B is free.
Free offprints. The corresponding author will receive 25 offprints free of charge. An offprint order form will be supplied by the Publisher for ordering any additional paid offprints.
Discount. Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.
Contents Alert. Physics Letters B is included in Elsevier's pre-publication service Contents Alert (for information, please contact: c-alert.mathphys@elsevier.nl).
ContentsDirect. Physics Letters B is included in Elseviers free E-mail service ContentsDirect. Please register at http://www.elsevier.nl/locate/ContentsDirect.

Publication scheme
Physics Letters B will be published weekly.

All correspondence with the Editors or Publisher should contain full reference to the paper concerned, i.e., the names of all the contributors, the full title, as well as the reference number. Contributors are reminded that, once their contribution has been accepted for publication, all further correspondence should be sent directly to the Publisher and not to the Editors (Drs. E.J. van der Wolk, Physics Letters B, Elsevier Science B.V., P.O. Box 521, 1000 AM Amsterdam, The Netherlands; telephone number +31 20 4852634; telefax number +31 20 4853439; electronic mail: NHPDESKED@ELSEVIER.NL (the receipt of an E-mail message will be acknowledged; in the absence of this acknowledgement, the mailer should assume that his message was never received by the Publisher)).
A prompt reply may be expected whenever appropriate. If no reaction is received within three weeks, authors are kindly requested to seek contact again.

Even greater access to nuclear and high energy physics literature

Completely upgraded

Nuclear Physics Electronic is a unique electronic platform that offers tabletop access to nuclear and particle physics journals from Elsevier Science.

Originally established in 1993, **Nuclear Physics Electronic** was one of the very first electronic journal services available on the WorldWideWeb, publishing full-text articles upon acceptance, well before the hard-copy version.

Completely redesigned and expanded, **Nuclear Physics Electronic** now provides the following additional electronic services:

- **FAST and EASY access to the largest collection of timely peer-reviewed accepted articles**
- **links to references of journals in Nuclear Physics Electronic, as well as to SPIRES**
- **link to the preprints of the Los Alamos Archives at xxx.lanl.gov**
- **PDF files showing the papers exactly as the printed version**
- **search facilities across all journals**
- **each published article linked to the PACS-based thesaurus**
- **e-mail alerting service**

Nuclear Physics Electronic provides easy access to extensive sources of literature and all from one convenient site.

For more information, check out the Nuclear Physics Electronic Website:

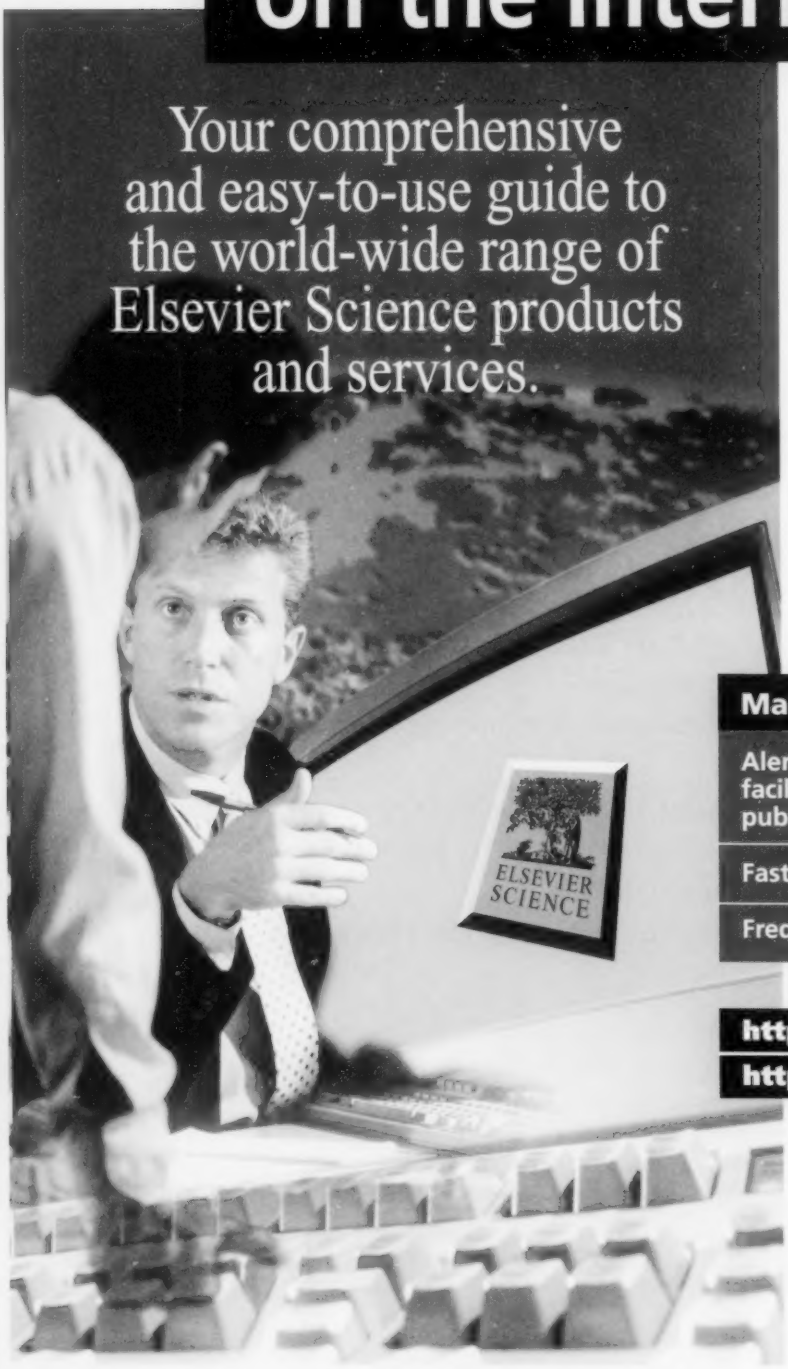
Elsevier Science on the Internet



Your comprehensive and easy-to-use guide to the world-wide range of Elsevier Science products and services.
ELSEVIER SCIENCE

Visit Elsevier Science on the Internet and access a unique repository of information covering the entire scientific spectrum. Our time-saving search facilities will lead you to our frequent updates in seconds.

Main features include:

- Alerting and awareness facilities for new and forthcoming publications.
- Fast, time-saving search facilities.
- Frequent updates.

ELSEVIER | PERGAMON | NORTH HOLLAND | EXCERPTA MEDICA

PHYSICS LETTERS B

Instructions to Authors (short version)

(A more detailed version of these instructions is published in the preliminary pages to each volume.)

Submission of papers

Manuscripts (one original + two copies), accompanied by a covering letter, should be sent to one of the Editors indicated on page 2 of the cover.

For submissions in High Energy Physics authors are encouraged to provide the number of their Los Alamos preprint to the Physics Letters B Editor at the moment of submission.

Original material. By submitting a paper for publication in Physics Letters B the authors imply that the material has not been published previously nor has been submitted for publication elsewhere and that the authors have obtained the necessary authority for publication.

Refereeing. Submitted papers will be refereed and, if necessary, authors may be invited to revise their manuscript. If a submitted paper relies heavily on unpublished material, it would be helpful to have a copy of that material for the use of the referee.

Types of contributions

Letters. The total length of the paper should preferably not exceed six journal pages, equivalent to ten typewritten pages with double spacing, including the list of authors, abstract, references, figure captions and three figures. In the case that more figures are required, the text should be shortened accordingly. As proofs will *not* be sent, authors should check their papers carefully before submission.

Manuscript preparation

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets. See notes opposite on electronic version of manuscripts.

Structure. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, Classification codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author. The name, complete postal address, telephone and fax numbers and the e-mail address of the corresponding author should be given on the first page of the manuscript.

Classification codes/keywords. Please supply one to four classification codes (PACS and/or MSC) and up to six keywords of your own choice that describe the content of your article in more detail.

References. References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to the more detailed instructions for examples.

Illustrations

Illustrations should also be submitted in triplicate: one master set and two sets of copies. The *line drawings* in the master set should be original laser printer or plotter output or drawn in black india ink, with careful lettering, large enough (3–5 mm) to remain legible after reduction for printing. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph, not drawn below it.

Colour plates. Figures may be published in colour, if this is judged essential by the Editor. The Publisher and the author will each bear part of the extra costs involved. Further information is available from the Publisher.

After acceptance

Notification. You will be notified by the Editor of the journal of the acceptance of your article and invited to supply an electronic version of the accepted text, if this is not already available.

Copyright transfer. You will be asked to transfer the copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

No proofs. In order to speed up publication, all proofreading will be done by the Publisher and proofs are *not* sent to the author(s).

Electronic manuscripts

The Publisher welcomes the receipt of an electronic version of your accepted manuscript (preferably encoded in LaTeX). If you have not already supplied the final, accepted version of your article to the journal Editor, you are requested herewith to send a file with the text of the accepted manuscript directly to the Publisher by e-mail or on diskette (allowed formats 3.5" or 5.25" MS-DOS, or 3.5" Macintosh) to the address given below. Please note that no deviations from the version accepted by the Editor of the journal are permissible without the prior and explicit approval by the Editor. Such changes should be clearly indicated on an accompanying printout of the file.

Author benefits

No page charges. Publishing in Physics Letters B is free.

Free offprints. The corresponding author will receive 25 offprints free of charge. An offprint order form will be supplied by the Publisher for ordering any additional paid offprints.

Discount. Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.

Contents Alert. Physics Letters B is included in Elsevier's pre-publication service Contents Alert (for information, please contact: c-alert.mathphys@elsevier.nl).

SCIENCE PUBLISHER TO THE WORLD

CONTENTS DIRECT

A FREE alerting service by E-mail for Elsevier Science journals.

ContentsDirect allows you unrivalled access to the tables of contents pages of Elsevier Science journals in the following subject areas:

- Chemistry and Chemical Engineering
- Clinical Medicine
- Computer Science
- Earth and Planetary Sciences
- Economics, Business and Management Science
- Engineering, Energy and Technology
- Environmental Science and Technology
- Life Sciences
- Materials Science
- Mathematics
- Physics and Astronomy
- Social Sciences
- Multidiscipline

What does ContentsDirect provide?

- Journal title
- Volume and issue number
- Title of paper
- Names of authors
- Page details
- Anticipated publication date
- News and offers

Why register to ContentsDirect?

- Provides via E-mail advance notice of forthcoming papers, allowing you to reserve the issue at your library.
- Provides an invaluable information resource to scientists and researchers requiring the very latest information on soon-to-be published papers.
- Keeps you at the forefront of current research.
- Enables you to create a personal archive of key journal contents in your field of interest.

How to register for ContentsDirect:

- The quickest way to register for **ContentsDirect** is via Elsevier Science home page on the world wide web.
- Registration is simple and the selection of titles is provided by access to drop down menus of all subject classifications with a complete listing of all titles available.
- If you wish to select new titles or amend your existing selection - simply re-visit the web site and personally make your changes.

Contents Direct

Register Now!
